Download PDF Online Book Humanimal Adam Rutherford Free eBook PDF/ePub/Mobi, The bestselling author of *A Brief History of Everyone Who Ever Lived* investigates what it means to be human—and animal

Publisher's note: *Humanimal* was published in the UK under the title *The Book of Humans*.

Evolutionary theory has long established that humans are animals: Modern *Homo sapiens* are primates who share an ancestor with monkeys and other great apes. Our genome is 98 percent identical to a chimpanzee's. And yet we think of ourselves as exceptional. *Are we?*

In this original and entertaining tour of life on Earth, Adam Rutherford explores the profound paradox of the "human animal." Looking for answers across the animal kingdom, he finds that many things once considered exclusively human are not: In Australia, raptors have been observed starting fires to

scatter prey; in Zambia, a chimp named Julie even started a "fashion" of wearing grass in one ear. We aren't the only species that communicates, makes tools, or has sex for reasons other than procreation. But we *have* developed a culture far more complex than any other we've observed. Why has that happened, and what does it say about us?

Humanimal is a new evolutionary history—a synthesis of the latest research on genetics, sex, migration, and much more. It reveals what unequivocally makes us animals—and also why we *are* truly extraordinary.
